### SCOPE OF CERTIFICATION:

Fee land management at the Inland and Western Regions, and procurement operations for the facilities listed in appendix A.

Management is responsible for ensuring the management system meets the Requirements. Our responsibility is limited to expressing an opinion as to whether the Requirements were met, based on our assessment. The SFI standard can be found at [www.sfiprogram.org](http://www.sfiprogram.org).

Our assessment was conducted in accordance with the ISO 17021:2015 management system auditing standard and, accordingly, included examining, on a sample basis, evidence supporting management's assertion that the Requirements were met and performing such other procedures as we considered necessary in the circumstances. We planned and performed our work in order to obtain reasonable, rather than absolute, assurance with respect to the information examined. We believe our work provides a reasonable basis for our opinion.

In our opinion, the management system was suitably designed to provide reasonable assurance that the Requirements were met, in all material respects, as of April 18, 2018.
